IDEAS THAT **RELEASE** IDEAS

PHILOSOPHY

"Answering what philosophy is, places us in a reflection that perceives it as a science, as a discipline, or as a fundamental knowledge. However, it is curious that in this attempt to answer what its nature is, we are almost forced to think about what type of science, discipline, or knowledge characterizes it.

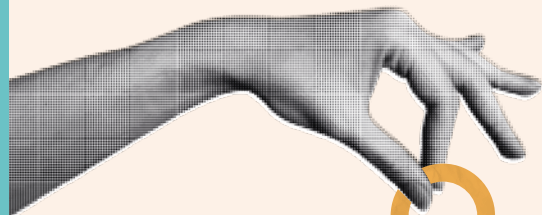

Philosophy turns out to be a fundamental and grounding field of knowledge, which demands a commitment to truth, coherence, and rigor in the exercise of thought. This undoubtedly involves all areas of human life, even those that relate human life to the life of other species. Hence, the interest of the Philosophy Program at the Pontifical Javeriana University of Cali is to commit to rigorous academic training, esteem, and respect for the differences of "Thinking and critical thinking are put at the service of different areas of professional practice, where the philosopher is gaining increasing importance and influence."

María Cristina Sánchez
Philosophy Program Director

Philosophers from Javeriana, are professionals with a strong sense of human and ethical sensitivity. Through a critical, reflective, and comprehensive perspective on themselves and their context, they can contribute creative and innovative ideas in any professional field. Their solid command of conceptual sources enables them to integrate philosophical knowledge with various disciplines across different areas of practice.

What Career Paths Are Open to a

PHILOSOPHER?

- Provide analytical, critical, and contextual support in political, social, and cultural projects.
- Lead editorial and communication projects.
- Develop your own philosophical enterprise.
- Advise on international cooperation projects.
- Pursue a career in teaching or research
- Design educational programs for academic institutions.

Studying Philosophy at Javeriana Cali has been the best decision I ever made. I received a rigorous education that prepared me for the demands of a changing world, while also developing various relational skills that opened many doors for me in the workplace. As a philosophy graduate, I have a broad career path. I currently work in the education sector, in management and as a university professor. I have also been able to support companies in their talent development processes. Choosing Javeriana and choosing philosophy is a commitment to giving meaning to life and being able to proudly say, **'I AM A JAVERIANO!'**

**Andrés Eduardo
Mojica Arboleda**
Philosophy Graduate.
